VACCINES FOR CHILDREN (VFC) PROGRAM

VACCINE ORDERING WORKSHEET

Instructions: Complete the worksheet that matches your provider category (e.g., low-, medium-, or high-volume) before submitting routine vaccine orders. Refer to the VFC Program Provider Operations Manual as needed.

First, conduct a physical vaccine inventory to determine the doses on hand.

Remove the first vaccines from the storage unit and group by lot numbers. Note the vaccine brand, lot numbers, and expiration dates in columns A, B, and C of the worksheet.

REFRIGERATOR		Α		В	C	D
VACCINE	BRAND	PRESENTATION	DOSES/ BOX	LOT NUMBERS	EXPIRATION DATE	# DOSES ON HAND
DTaP	☑ Daptacel □ Infanrix	☑ Vials □ Syringes	10	C3356AA C3359AA	9/26/24 12/31/24	10 2

Count all doses of that lot number and write the # Doses on Hand in column D. Repeat for each lot number.

REFRIG	ERATOR	Α		В	C	D	E	F	G	Н	1	J
VACCINE	BRAND	PRESENTATION	DOSES/ BOX	LOT NUMBERS	EXPIRATION DATE	# DOSES ON HAND	TOTAL DOSES ADMINIS- TERED	SAFETY STOCK	ESTIMATED NEED	TOTAL DOSES ON HAND (total column D)	# DOSES	TOTAL DOSES TO ORDER
DTaP	☐ Daptacel ☐ Infanrix	✓ Vials ☐ Syringes	10	C3356AA C3359AA	9/26/24 12/31/24	10 2	25	x 1.33 =	33.25	- 12 =	21.25	30

- Add up the doses in **column D** and write the *Total Doses on Hand* in **column H**.
- Return those vaccines to the storage unit and repeat for all VFC vaccines before completing the rest of this worksheet.

Determine the total doses administered since your previous order.

- Determine and write Total Doses Administered in column E.
 - A. Run usage reports on CAIR (or your EHR connected to CAIR) to filter VFC vaccines administered.
 - B. Write the number in **column E** (see below).

Calculate the total doses to order.

- 1 Calculate and write the Estimated Need in column G.
 - A. Multiply column E by column F.
 - B. Write the number in column G.
- 2 Calculate and write the # Doses in column I.
 - A. Calculate column G minus column H.
 - B. Write the number in **column I**.

E	F	G		Н			J
TOTAL DOSES ADMINIS- TERED	SAFETY STOCK	ESTIMATED NEED		TOTAL DOSES ON HAND (total column D)			TOTAL DOSES TO ORDER
25	x 1.33 =	33.25	-	12	=	21.25	30

- Round up and write the *Total Doses to Order* in **column J**.
 - A. If the number in **column I** is negative (such as "-10.68"), write "0" in **column J**.
 - B. Otherwise, round up to the nearest order quantity (doses/box) and write the number in **column J**.

Submit your order at myCAvax using the information from this worksheet.

Remember: Report doses administered (since the previous order) and doses on hand (at the time of the order) for all VFC vaccines—even if you're not ordering new doses.

Don't forget to process returns and transfers.
